Our relationship with our world

Our relationship with our world

The basics

We are the masters of limitations. We have been given the gift of Free Will as our birthright, but we must allow ourselves the use of this gift. Our thoughts direct our outcome. At the beginning of this journey we must ask ourselves "Do I have limiting beliefs? Am I allowing myself the use of the gift which I have been given?".

I hope that these books and pages help open the mind and make all aware of the possibilities. May you daily grow in faith and love.

Our relationship with our world

What we think we become

We become what we truly think. Our conscious mind impresses our subconscious mind. Our subconscious manifests the belief. "For as he thinketh in his heart, so is he..." - Proverbs 23:7 - Attached is the book *As a Man Thinketh* by James Allen.
